**MEMORY CARE ASSISTED LIVING**

# *Imagine a home where each resident feels successful and each family feels at ease*

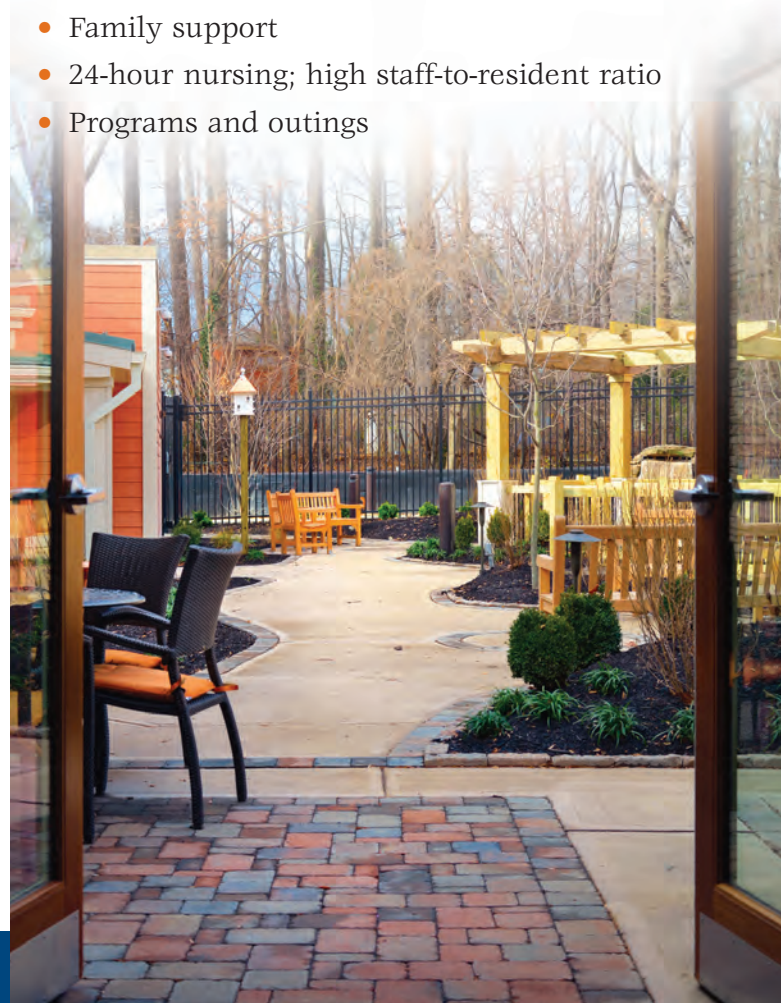

*At Cohen-Rosen House, residents will discover how very personal and individual solutions shape each day, and families will discover how private accommodations, creative programming and loving staff can accomplish so much more than they could do on their own.*

## ***Imagine a whole program built around Mom or Dad:***

- A delightful secure courtyard with walking paths and raised planters
- Knowing there are people who care, even when you cannot be there
